2a — Close Open Management Ports (2 Marks)

The screenshot displays the Microsoft Azure portal interface. On the left, the navigation pane shows various services, with 'Inbound security rules' selected under the 'TechBridge-NSG' network security group. The main pane shows the 'Add inbound security rule' configuration form. The form is titled 'Add inbound security rule' and is for the 'TechBridge-NSG' network security group. The configuration details are as follows:

- Source:** IP Addresses (dropdown)
- Source IP addresses/CIDR ranges *:** 197.184.87.135 (text input with a green checkmark)
- Source port ranges *:** * (text input)
- Destination:** Any (dropdown)
- Service:** RDP (dropdown)
- Destination port ranges:** 3389 (text input)
- Protocol:** TCP (radio button selected)
- Action:** Allow (radio button selected)
- Priority *:** 300 (text input with a green checkmark)
- Name *:** RDP (text input with a green checkmark)
- Description:** (empty text area)

At the bottom of the form, there are 'Add' and 'Cancel' buttons. A 'Give feedback' link is located at the bottom right of the page.
