

WEEK 1 PRACTICAL

CTU Business requirements:

CTU Training Solutions is a premier private tertiary education provider in South Africa specializing in IT, design, business management, engineering, and humanities, with a strong focus on bridging the skills gap through both national qualifications and international vendor certifications. **Students:** Hundreds to thousands per campus/nationwide.

Staff/Lecturers/Admin: Hundreds of staff nationwide.

Total Potential Concurrent Users: Ranging from several hundred to over a thousand during peak exam or virtual teaching hours

Identify required azure resources:

Task 3 – Identify Required Azure Services

Based on the 10-week project plan, list and describe each Azure service you will use. Use the table below as a guide for your documentation:

Azure Service	Purpose / Why you need it	Week it is used
Resource Group	Containerize <u>resourcees</u>	1
Virtual Network (<u>VNet</u>)	To create network	2
Virtual Machine (VM – B1s)	Substitute physical server	3
Microsoft Entra ID	To control users and groups	4
Network Security Group (NSG)	Define network security groups rules	5
Azure Storage Account	A storage medium in cloud for data storage	6
Microsoft Defender for Cloud	A security posture management solution in azure	7
Azure Monitor	An azure monitor that enables performance and system monitoring in azure	8
Azure Cost Management	A solution in azure enabling you to calculate projected costs in azure	9
