

WEEK 8 PRACTICALS

Create azure budget plan:

The screenshot shows the Azure Cost Management 'Create budget' page in a web browser. The browser tabs include 'The Erotic Garden (After H...', 'Azure Portal | Microsoft Azure', and 'Cost Management: Thabo Abe Motlatla'. The address bar shows the URL: `portal.azure.com/#view/Microsoft_Azure_CostManagement/Menu/~:/overview`. The page header includes the Microsoft Azure logo, an 'Upgrade' button, a search bar, and a Copilot icon. The user's email address, 'motlatlathaboabe@gm...', is visible in the top right corner.

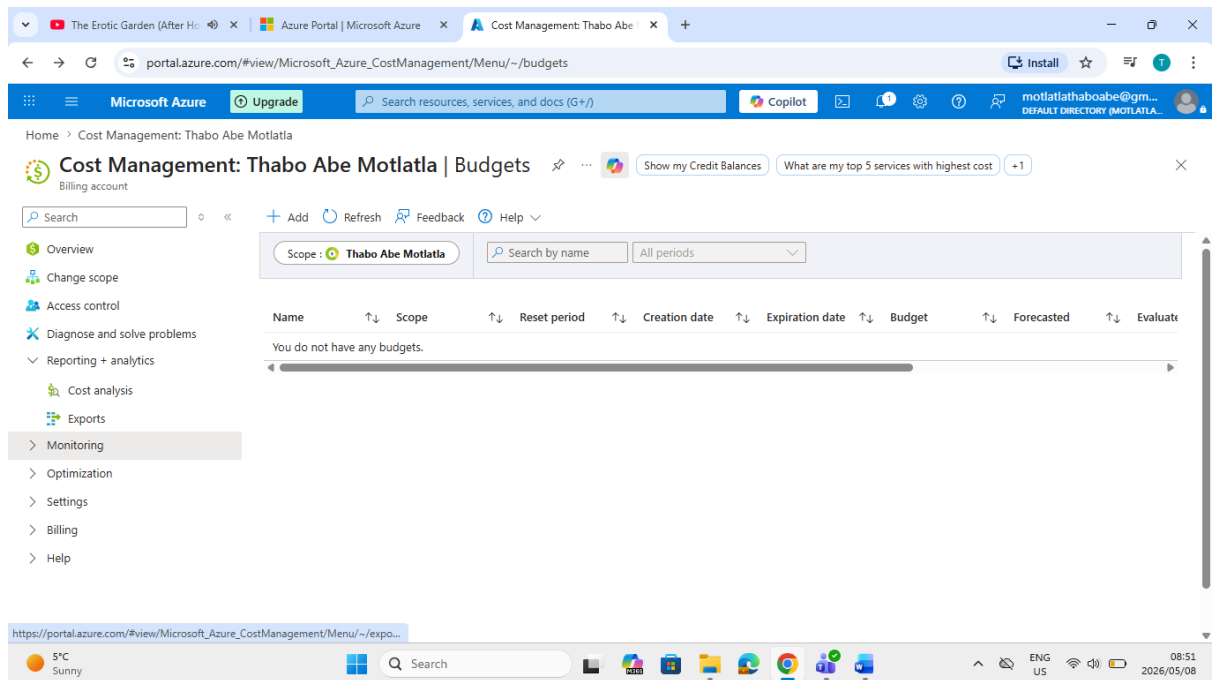

The main content area is titled 'Cost Management: Thabo Abe Motlatla | Overview'. It features a left-hand navigation pane with options like 'Overview', 'Change scope', 'Access control', 'Diagnose and solve problems', 'Reporting + analytics', 'Monitoring', 'Cost alerts', 'Alert rules', 'Budgets', 'Optimization', 'Settings', 'Billing', and 'Help'. The 'Overview' section is currently selected.

The 'Overview' section displays a 'Get Started' tab with links to 'Tutorials' and 'What's new'. Below this, there are four buttons: 'Ask Copilot for Cost Insights', 'What's my current month's costs?', 'What are my forecasted costs?', and 'How have my costs changed?'. The main heading is 'Analyze and optimize cloud costs', followed by the text 'Setup and manage your account, analyze trends, and optimize cloud efficiency all in one place.' and a 'Learn more' link.

The 'Create budget' page is the next step in the process. It has a breadcrumb trail: 'Home > Cost Management + Billing | Cost Management > Cost Management: Thabo Abe Motlatla | Budgets'. The page title is 'Create budget'. Below the title, there are two steps: 'Create a budget' (which is checked) and 'Set alerts' (which has a question mark icon). The text 'Create a budget and set alerts to help you monitor your costs.' is displayed.

The 'Budget scoping' section explains that the budget will be assigned to the selected scope and that additional filters like resource groups can be used for more granular monitoring. The 'Scope' is set to 'Thabo Abe Motlatla', and there is an 'Add filter' button. The 'Budget Details' section prompts the user to give the budget a unique name, select the time window for analysis, and specify the expiration date and amount. At the bottom of the page, there are 'Previous' and 'Next >' buttons.

The Windows taskbar at the bottom shows the system clock as 08:48 on 2026/05/08, with a weather forecast of 5°C Sunny. A 'Power & Battery' notification is also visible, indicating that 'Energy saver is on'.

Cost management report:

In terms of costs management I navigated to the cost management section to create a budget but my resources were all removed due to expired subscription but I atleast navigated to the section to indicate how I would have tackled the issue. In terms of cost analysis I could not gain a view of my costs due to removal of my resources due to subscription expiration but I managed to navigate to the cost analysis section to have an idea of where to configure it.
