Availability options

Zone options ☒ Self-selected zone
Choose up to 3 availability zones, one VM per zone

☐ Azure-selected zone (Preview)
Let Azure assign the best zone for your needs

ⓘ Using an Azure-selected zone is not supported in region 'East US'.

Define network connectivity for your virtual machine by configuring network interface card (NIC) settings. You can control ports, inbound and outbound connectivity with security group rules, or place behind an existing load balancing solution.[Learn more](#)

Network interface

When creating a virtual machine, a network interface will be created for you.

Virtual network * (new) AfricaVM-vnetCreate new

Subnet * (new) default (10.0.0.0/24)

Public IP * (new) AfricaVM-ipCreate newPublic IP addresses have a nominal charge. [Estimate price](#)

NIC network security group *NoneBasic

DOCUMENTATION

The auto shutdown feature helps azure reduce costs by automatically shutting down azure virtual machines during off hours.
