

## Week 3

### VM details

- Subscription
  - Azure for students has been used since this is the subscription that was used when conducting the creation of the VM
- Resource group
  - The selected resource group is CTU\_RG
- VM Name
  - I gave the VM the name of CTU-VM
- Region
  - The region that was chosen was the South Africa North. The reason for this is because the region that most students would be from would be in South Africa therefore this would be the best region.
- Image
  - This is the OS that runs on the VM in this case for the VM ubuntu –24\_04-Its has been chosen
- Admin Account
  - An admin account was created for this VM with secure credentials to ensure that the security of the account
- Auto Shut down
  - Auto shutdown was enabled to ensure that the VM does not waste resources when it is not used in this case it will automatically shut down at 19:00 which will ensure that anyone who uses it will have a limited time to finish their work before the machine shuts down.
- User credentials
  - The Admin Username is :CTU-Admin
  - And the password is : @DM1N!160504

## Project details

Select the subscription to manage deployed resources and costs. Use resource groups like folders to organize and manage all your resources.
