

Network 731 Practical week 1 Activity

Business Requirements for CTU Training Solutions

CTU Training Solutions is a training provider that needs a reliable cloud infrastructure to host its learning systems and store student data.

Business Needs

The organization requires a cloud solution that can:

- Host an online training website
- Store student records and course materials
- Provide secure remote access for administrators
- Ensure high availability and scalability
- Monitor system performance
- Keep infrastructure low-cost within the \$100 student credit

The Azure service required

- Azure Virtual Machines
- Entra ID (Formerly Azure AD)
- Azure Back up
- Azure Blob storage
- Azure Monitor
- Azure SQL Database
- Azure App Service

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)
