

Week 7 Practical: Monitoring Setup

17–23 April | Total Marks: 10

Student Name:	Aiden Horn
Student ID:	20240429
Submission Date:	
Azure Subscription ID:	

Task 1 — Enable Azure Monitor (4 Marks)

Task 1.1 — Enable Monitoring on Your Virtual Machine (2 Marks)

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the 'Microsoft Azure' logo, an 'Upgrade' button, and a user profile for 'giggles_quiver1k@iclou...'. The main content area is titled 'Compute infrastructure | Virtual machines'. On the left, a sidebar lists navigation options: 'Overview', 'All resources', 'Infrastructure', 'Disks + images', 'Capacity + placement', 'Related services', 'Monitoring+Operations', and 'Help'. The 'Virtual machines' page displays a table of virtual machines. The table has columns for 'Name', 'Subscription', 'Resource Group', and 'Location'. Two VMs are listed: 'TechBridge-DB01' and 'TechBridge-Web01', both associated with 'Azure subscription' and 'TechBridge-RG'. The bottom of the page shows a status bar indicating 'Showing 1 - 2 of 2. Display count: auto' and a 'Give feedback' link.

Name	Subscription	Resource Group	Location
TechBridge-DB01	Azure subscription...	TechBridge-RG	Sc
TechBridge-Web01	Azure subscription...	TechBridge-RG	Sc

Onboarding now supports OpenTelemetry metrics. If you enable only OpenTelemetry metrics, your VM will still collect data but will not appear as 'Monitored' in this view. [Learn more](#)
