Create a virtual machine

Help me create a low cost VM Help me choose the right VM size for my workload Help me create a VM optimized for high availability

Changing Basic options may reset selections you have made. Review all options prior to creating the virtual machine.

This subscription may not be eligible to deploy VMs of certain sizes in certain regions.

Project details

Select the subscription to manage deployed resources and costs. Use resource groups like folders to organize and manage all your resources.

Subscription * Azure for Students

Resource group * CTU-Student-RG
[Create new](#)

Instance details

Virtual machine name * B1s

Region * (Africa) South Africa North
[Deploy to an Azure Extended Zone](#)

Availability options Availability zone

Zone options

☒ Self-selected zone
Choose up to 3 availability zones, one VM per zone

☐ Azure-selected zone (Preview)
Let Azure assign the best zone for your needs

Availability zone * Zone 1

☒ You can now select multiple zones. Selecting multiple zones will create one VM per zone. [Learn more](#)

Security type Trusted launch virtual machines
[Configure security features](#)

BasicsDisksNetworkingManagementMonitoringAdvancedTagsReview + create

Define network connectivity for your virtual machine by configuring network interface card (NIC) settings. You can control ports, inbound and outbound connectivity with security group rules, or place behind an existing load balancing solution.
[Learn more](#)

Network interface

When creating a virtual machine, a network interface will be created for you.

Virtual network *

CtuStudent-Vnet-vnet

Create new

Subnet *

AdminSubnet (10.0.2.0/24)

Manage subnet configuration

Public IP

(new) B1s-ip

Create new

Public IP addresses have a nominal charge. [Estimate price](#)

NIC network security group

☒ None

☐ Basic

☐ Advanced

The selected subnet 'AdminSubnet (10.0.2.0/24)' is already associated to a network security group 'CtuStudent-Vnet-nsg'. We recommend managing connectivity to this virtual machine via the existing network security group instead of creating a new one here.

Delete public IP and NIC when VM is deleted

☐

Enable accelerated networking

☐

The resource provider 'Microsoft.Network' should be registered in order to enable accelerated networking. [Learn more](#)

Identity

Enable system assigned managed identity ⓘ☐

Microsoft Entra ID

Login with Microsoft Entra ID ⓘ☐

RBAC role assignment of Virtual Machine Administrator Login or Virtual Machine User Login is required when using Microsoft Entra ID login. [Learn more](#)

Microsoft Entra ID login now uses SSH certificate-based authentication. You will need to use an SSH client that supports OpenSSH certificates. You can use Azure CLI or Cloud Shell from the Azure Portal. [Learn more](#)

Auto-shutdown
